Mead, superintendent of the parlor meeting department, was in charge. The meeting opened with singing of hymns by the W. C. T. U. songs, and Mrs. Mead read the 31st Psalm. Mrs. George H. Scouse offered prayer. Mrs. Joseph J. Fields, secretary, read a paper on "The Loyalty Legion, spoke relative to the work and of the work which is to be undertaken by this department during the coming year. Mrs. Fields urged the ladies to encourage children to attend meetings.

The next on the program was a vocal solo by Mrs. Louis O. Potter entitled "The Mother Head." Mrs. Mead then read an original paper on the history of the flag, which was highly appreciated. Mrs. Louis O. Potter was heard in a song entitled "The Loyalty Legion, composed by Mrs. Starkweather, and all joined in the chorus. Mrs. F. H. Bushnell read an article, "The Liquor Question in England." Mrs. L. Lathrop read an extract of an article entitled "Casting a Bluff" which was printed in a recent paper. Scouse read an article taken from the Connecticut State Agricultural College, "The Liquor Question in Connecticut." Mrs. Louis O. Potter rendered in fine voice A Perfect Day.

Miss Harriet Cross spoke of the work of the W. C. T. U. in 49 years and in part she said:

Just a little talk to you about the great organization we are representing today. It is a woman's organization, 45 years old. Today it is the most powerful woman's society in the world. In 1874 21 states were represented at the first national convention and today 45 states and territories are represented in the United States (and on paid basis of members) and 52 countries even the title of the society. There is no place where the W. C. T. U. is not known, for the work of our organization covers so much ground it goes to everywhere.

Everything that will tend to make the world a better place to live in or to make the people happier comes under some department of their work; to liberate the saloons, to stop the liquor traffic is the cornerstone of the work, for from that come all the other evils that afflict the world. It is through us and by us and in the scientific temperance instruction in schools. Now we are seeing the results of the teaching in the children of today.

The postoffice amendment forbidding the sending or advertising of liquors in the mails and the District of Columbia dry bill, also a bill to submit to the people the matter of voting on the national amendment, and the national W. C. T. U. is the only organization for most of these bills, aided by the good men in congress. Two years ago there were nine states; now there are 25, with four more coming soon. Now about Connecticut. Shall we be the last or shall we be like the others who go to be shod—dragged in. You know the process.

Refreshments of sandwiches, cake and coffee were served.

The governor urged every citizen of the state to be loyal and to give every possible assistance to the nation in the crisis that is now facing us. Speaking in reference to the Home Guard the governor said it should be at least five thousand strong and should be fully equipped.

When the conference was called to order President Jones introduced Prof. Stadtmueller. He said he was profoundly impressed with the size and scope of the gathering. He urged conservation of state and local resources, to leave the farms and go to the cities. He predicted that the law of supply and demand will soon balance up.

State Grange Master Davis was next introduced. He spoke of the feasibility of raising beef cattle in Connecticut. He said that it was possible to bring young beef stock into the state from other states and have them ready for market when eighteen to twenty months old. He said that New England has about two per cent. of all the cattle in the United States. Statistics show, he said, that the value of individual head of cattle averages \$24.25 in the United States.

Mr. Stadtmueller here said that he believed that grain and crops should be raised in large quantities. If railroad connections were cut off in New England and there was no other source of supply New England could not exist much over ten or twelve.

It was recommended that the project of inducing Connecticut people to plant kitchen gardens be brought before the directors of the State Chamber of Commerce at their meeting on Friday (tomorrow).

**PIN THIS UPON WIFE'S DRESSER**

WARNS WOMEN AGAINST CUTTING CORNS AND SAYS THEY LIFT RIGHT OUT.

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut them and these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts off without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is gummy but it dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.
